

LES FINES LAMES
FRANCE

Price adjustments coming on May 15, 2024

LES FINES LAMES want to deeply thank all the retailers and clients that supports the innovative and premium products created by the French company, since the adventure started in 2016.

Without them, the story of LES FINES LAMES wouldn't have progressed so rapidly. By believing and contributing to its distribution, the brand has transformed into a world leader in the premium cigar accessories market.

In order to maintain the best value for money for the end consumer, and to keep offering an attractive sales coefficient for our retailers, **we kept our prices the same since LE PETIT cigar knife release in 2019, i.e. 4 years without any increase.**

However, a lot has changed since 2019.

Covid-19, rapid transformation of the global supply chain, rising raw materials prices, highly volatile transport costs, geo-strategic instabilities in Europe and the Middle East, and our suppliers have increased their prices by an average of more than 16.3% over the period 2020-2024.

For these reasons and in order to maintain Les Fines Lames Made in France high standards, the enterprise need to fairly adjust the prices of half of its catalog.

In detail, the adjustments are as follows:

- LE PETIT cigar knife: between +3 and +7%.
- CONCRETE ASHTRAY : +6%.
- CIGAR STAND : +13%.

- PUNCH BRACELET : No increase.
- LE TAG T135 : No increase.
- LE TAG T100 : No increase.

These new prices will take effect on May 15, 2024.

All orders placed and confirmed before this date will be subject to the 2023 pricelist.
