International Trade Fair for the  
Production of Tobacco Goods,  
E-Cigarettes, Pipes and Shishas  
15 - 17 September 2022

## Media Information 23/2021

### InterTabac and InterSupply to be a tobacco industry platform once more in September 2022

**The twin trade fairs InterTabac – the world's largest trade fair for tobacco products and smoking accessories – and InterSupply are to be held next in September 2022 as the place where the tobacco industry meets up. In view of the current situation, the industry has decided against going ahead with its plans for this year's events.**

Dortmund, 25 March 2021 – Current plans for InterTabac and InterSupply are now focusing on 15 to 17 September 2022, when participants from home and abroad will once again be able to convene in Dortmund and discover the latest products and trends presented by exhibitors. "Working closely with the industry associations and partner associations, the conceptual sponsors, the advisory board and the exhibitors of these twin fairs, it has become clear that the vast majority are against holding the events this September, as previously announced," said Sabine Loos, Managing Director of Westfalenhallen Unternehmensgruppe GmbH.

Last time, InterTabac and InterSupply set a new visitor record, clocking up a total of 13,800 guests. "Alongside InterTabac with its superb record of success over several decades, InterSupply has now also been able to establish itself as a firm feature in the tobacco industry diary," added Loos. As an international trade fair, next year's InterSupply (the 6<sup>th</sup> event) will once again focus on the manufacturing processes behind tobacco products, e-cigarettes, pipes and shishas, and will once again offer participants an ideal platform for discussing, sharing and interacting, and for placing and taking orders.

The twin fairs in 2022 will be accompanied by an exclusive series of tastings, conferences, and a supporting programme which has been evolved and refined in recent years and will continue to be an important core part of the event in the years to come. Leading experts will offer a wide range of information on key industry topics such as new legal frameworks and political decision-making. Tastings and pairings will complement the portfolio with multi-sensory taste experiences for trade visitors centring around new trends and tobacco products.
